

Welcome Note of the Conveners

Dear colleagues and friends,

It is our great pleasure to welcome you to Dresden, Germany, for the 3rd International Meeting on Chronic Nonbacterial Osteomyelitis (CNO).

We received numerous highly interesting contributions documenting the constantly growing scientific interest in CNO. According to peer-review based ranking of the contributions, we selected abstracts for oral presentations during the CNO meeting and/or the "8th International Congress of Familial Mediterranean Fever and Systemic Auto-Inflammatory Diseases" on behalf of the International Society of Systemic Auto-Inflammatory Diseases (ISSAID), which will take place right after. The other abstracts will be presented in classical postersessions at the ISSAID meeting. In addition, we will offer e-poster presentations which allow for the viewing and discussing posters during the entire meeting.

Both meetings will offer numerous opportunities to convene with experts on CNO and other auto-inflammatory diseases. We hope to welcome about 100 participants at the CNO meeting and over 400 participants at the ISSAID congress from all over the world to discuss the latest scientific and clinical developments, including new treatment options.

We will start with the Meeting on CNO on September 29–30, followed by the ISSAID Young Investigators Meeting, where excellent young scientists will present their exciting results. On the evening of September 30, we will celebrate the meeting with an Opening Ceremony – don't miss it!

We hope to have a great and memorable congress and a pleasant time in Dresden for all!

Angela Rösen-Wolff
